

The bridge to possible

Learn the technology, land your dream job.

*“Honestly, if Cisco Networking Academy didn’t exist I wouldn’t be in cybersecurity right now. I had very little knowledge of it before I took the Introduction to Cybersecurity course”*

Agnes, Level 1 Security Operations Center (SOC) Analyst

## Cisco Networking Academy

We are a skills-to-jobs program offering technology education through public-private partnerships, high-quality curriculum, and inclusive workforce development programs. We partner with high schools, vocational colleges, universities, and nonprofits worldwide, offering our industry-leading curriculum in tandem to enrich their programs and services. We’ve been transforming the lives of learners, educators, and communities since 1997.

## Skills-to-jobs education

**Flexible delivery** with instructor-led, direct to learner, self-paced, or hybrid options to support a variety of teaching and learning needs.

**Licensed free** to academic and nonprofit institutions, our curriculum starts with the end in mind – the skills needed for entry-level tech jobs and certifications. Courses are developed by learning scientists and cover key technology topics like networking, cybersecurity, AI, data science, and programming, plus professional skills to develop learners into well-rounded candidates. Our courses prepare learners with job-ready skills, and many align with globally-recognized industry certifications.

**Educators** get access to pre-built course content, innovative teaching resources, professional development, and a global community of peers.

**Learners** get set up for success with job-ready skills, collecting digital badges, and preparing for industry-recognized certifications. Flexible learning choices support learners from curiosity to careers, with hands-on labs and our powerful network simulation tool, Cisco Packet Tracer. Career resources and job-matching services connect learners to employment partners.

## Educating the learners who connect the world

**Over 24 million  
students**  
since inception\*

**31,300 active  
instructors**
